

Join the Afro American Cultural
Center at Yale for the

HIGHER EDUCATION INITIATIVE

In partnership with the City of Philadelphia Department of
Human Services

The Higher Education Initiative creates meaningful connections between young people involved in the child welfare system and students from Yale University through the facilitation of free workshops that provide resources and guidance in the pursuit of higher education.

The program is a great opportunity for students who are interested in:

- gaining an understanding of the process of higher education, and through students' personal stories seeing how higher education can fit into their own futures.
- receiving an explanation of the necessary materials and steps for applying to post-secondary education.
- learning about a wide variety of potential career paths and educational options, including trade schools, 2- and 4-year college programs, majors, travel, and research opportunities in university settings.
- building relationships with other young people in the child welfare system through goal sharing and discussions about the possibilities their futures hold.

All sessions will be held at the
Achieving Independence Center
1415 N Broad St

No prior knowledge/experience
is necessary to participate!
